Issued by

National Institutes of Health ([NIH](#))

Agency for Healthcare Research and Quality ([AHRQ](#))

Health Resources Services Administration ([HRSA](#))

Purpose

This Notice supersedes [NOT-OD-17-084](#) and [NOT-OD-17-003](#), and establishes stipend levels for fiscal year (FY) 2018 Kirschstein-NRSA awards for undergraduate, predoctoral, and postdoctoral trainees and fellows, as shown in the tables below. In addition, the Training Related Expenses and the Institutional Allowance for postdoctoral trainees and fellows have been increased. The Training Related Expenses and Institutional Allowances for predoctoral trainees and fellows and the Tuition and Fees for all educational levels remain unchanged. This Notice reflects the Consolidated Appropriations Act, 2018 (Public Law 115-141), signed into law on March 23, 2018.

The budgetary categories described in this Notice apply only to Kirschstein-NRSA awards made with FY 2018 funds. All FY 2018 awards previously issued using [NOT-OD-17-084](#) and [NOT-OD-17-003](#) will be revised to adjust funding to the FY 2018 levels. Appointments to institutional training grants that have already been awarded in FY 2018 must be amended to reflect the FY 2018 stipend levels once the training grant award has been adjusted by the NIH. Amended appointments must be submitted through xTrain in the eRA Commons. Retroactive adjustments or supplementation of stipends or other budgetary categories with Kirschstein-NRSA funds for an award made prior to October 1, 2017 are not permitted.

Stipends

Effective with all Kirschstein-NRSA awards made on or after October 1, 2017, the following annual stipend levels apply to all individuals receiving support through institutional research training grants or individual fellowships, including the Maximizing Access to Research Careers (MARC) and Building Infrastructure Leading to Diversity (BUILD) programs.

Undergraduates in the MARC and BUILD Programs: For institutional training grants (T34, TL4), two stipend levels may be used for undergraduate candidates: Freshmen/Sophomores and Juniors/Seniors.

Career Level	Stipend for FY 2018	Monthly Stipend
Freshmen/Sophomores	\$9,168	\$764

Juniors/Seniors	\$12,840	\$1,070
-----------------	----------	---------

Predocctoral Trainees and Fellows: For institutional training grants (T32, T35, T90, TL1) and individual fellowships (F30, F31), one stipend level is used for all predocctoral candidates, regardless of the level of experience.

Career Level	Years of Experience	Stipend for FY 2018	Monthly Stipend
Predocctoral	All	\$24,324	\$2,027

Postdoctoral Trainees and Fellows: For institutional training grants, (T32, T90, TL1) and individual fellowships (F32), the stipend level for the entire first year of support is determined by the number of full years of relevant postdoctoral experience when the award is issued. Relevant experience may include research experience (including industrial), teaching assistantship, internship, residency, clinical duties, or other time spent in a health-related field beyond that of the qualifying doctoral degree. Once the appropriate stipend level has been determined, the trainee or fellow must be paid at that level for the entire grant year. The stipend for each additional year of Kirschstein-NRSA support is the next level in the stipend structure and does not change mid-year.

Career Level	Years of Experience	Stipend for FY 2018	Monthly Stipend
Postdoctoral	0	\$48,432	\$4,036
	1	\$48,804	\$4,067
	2	\$49,188	\$4,099
	3	\$51,324	\$4,277
	4	\$53,184	\$4,432
	5	\$55,308	\$4,609
	6	\$57,528	\$4,794
	7 or More	\$59,736	\$4,978

Senior Fellows (F33 only): The stipend level must be commensurate with the base salary or remuneration that would have been paid by the institution with which the individual is permanently affiliated when the award is issued, but cannot exceed the current Kirschstein-NRSA stipend limit set by the NIH for those with 7 or more years of experience. The level of Kirschstein-NRSA support will take into account concurrent salary support provided by the institution and the policy of the sponsoring institution. NIH support does not provide fringe benefits for senior fellows.

Relevant Policies

Current stipend levels are to be used in the preparation of future competing and non-competing NRSA institutional training grant and individual fellowship applications. They will be administratively applied to all applications currently in the review process.

NRSA support is limited to 5 years for predocctoral trainees (6 years for dual-degree training), and 3 years for postdoctoral fellows. The NIH provides eight levels of postdoctoral stipends to accommodate individuals who complete other forms of health-related training prior to accepting a Kirschstein-NRSA supported position. (The presence of eight discrete levels of experience, however, does not constitute an endorsement of extended periods of postdoctoral research training).

It should be noted that the maximum amount that NIH will award to support the compensation package for a graduate student research assistant remains at the zero level postdoctoral stipend, as described in [NOT-OD-02-017](#).

Tuition and Fees, Training Related Expenses, and Institutional Allowance for Kirschstein-NRSA Recipients

The NIH will provide funds for Tuition and Fees, Training Related Expenses, and Institutional Allowance as detailed below. The amounts for tuition do not change, but the Training Related Expenses and the Institutional Allowance for postdoctoral trainees and fellows are increased by \$1,000.

A. Tuition and Fees

Undergraduate and Predoctoral Trainees and Fellows: For institutional training grants (T32, T34, T35, T90, TL1, TL4) and individual fellowships (F30, F31), an amount per predoctoral trainee or fellow equal to 60% of the actual tuition level at the applicant institution, up to \$16,000 per year, will be provided. If the trainee or fellow is enrolled in a program that supports formally combined, dual-degree training (e.g., MD/PhD, DO/PhD, DDS/PhD, AuD/PhD, DVM/PhD), the amount provided per trainee or fellow will be 60% of the actual tuition level, up to \$21,000 per year.

Postdoctoral Trainees and Fellows: For institutional training grants (T32, T90, TL1) and individual fellowships (F32, F33), an amount per postdoctoral trainee or fellow equal to 60% of the actual tuition level at the applicant institution, up to \$4,500 per year, will be provided. If the trainee or fellow is enrolled in a program that supports postdoctoral individuals in formal degree-granting training, an amount per postdoctoral trainee or fellow equal to 60% of the actual tuition level at the applicant institution, up to \$16,000 per year, will be provided.

B. Training Related Expenses on Institutional Training Grants

For institutional training grants (T32, T35, T90, TL1), these expenses (including health insurance costs) for predoctoral and postdoctoral trainees will be paid at the amounts shown below for all competing and non-competing awards made with FY 2018 funds.

- *Predocctoral Trainees:* \$4,200
- *Postdoctoral Trainees:* \$9,850

C. Institutional Allowance for Individual Fellows

This allowance for predoctoral and postdoctoral fellows will be paid at the amounts shown below for all competing and non-competing awards made with FY 2018 funds.

Institutional Allowance for individual fellows (F30, F31, F32, F33) sponsored by non-Federal Public, Private, and Non-Profit Institutions (Domestic & Foreign, including health insurance):

- *Predocctoral Fellows:* \$4,200
- *Postdoctoral Fellows:* \$9,850

Institutional Allowance for individual fellows (F30, F31, F32, F33) sponsored by Federal and For-Profit Institutions (including health insurance):

- *Predocctoral Fellows:* \$3,100
- *Postdoctoral Fellows:* \$8,750
